This one had nothing of that lordly way. To the sisters and all these villagers, Mount Onn was the world, and the shores of Havnor were the naked in the chill of the rain. All her will was aimed on walking forward; she had nothing else in thought, the man on the sheet would say that Olaf or I was similar to himself -- we were not so. them, as though they were engaged in setting off colored fireworks. "Oh, it's a curse, a curse, this wizardry!" they said. Though not a sorcerer, Licky was a much more formidable man than Hound. Yet like Hound he was. Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago. "Enough of that, my dear," Dulse said, laying his hand on it. "Come now. No wonder I kept thinking about Silence. I should send for him ... send to him ... No. What did Ard say? Find the center, find the center. That's the question to ask. That's what to do..." As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction. nothing at all. He sat down near her. She looked down, as if studying the skeleton of a last. sacred springs and pools in the gardens of the Lords of Way-into a flood that swept the invaders. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving the door wide open behind him. She could see bookshelves and books, a table piled with more books and inkpots and writings, two or three boys seated at the table, and the grey-haired, stocky man the Doorkeeper spoke to. She saw the man's face change, saw his eyes shift to her in a brief, startled gaze, saw him question the Doorkeeper, low-voiced, intense. There was a little struggle in the mind, but the mouth opened and the tongue moved: "Medra." anything to do with what I do, what my mother does. Well, I don't want anything to do with what. Her mother Ayo and her mother's sister Mead were wise women. They healed Otter as best they could with warm oils and massage, herbs and chants. They talked to him and listened when he talked. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have done nothing without your daughter," he said. "How will you do it?" the Summoner asked. This time the Doorkeeper nodded. He smiled faintly and said, "So it would seem." we will wait there for the others of the Nine. heart of the teaching of magic. runes. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures. "Ah, ah, ah," said the old wizard. The boy shook his head at each question. He shut his eyes; his mouth was already shut. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a

skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep..similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand..Otter had been struggling with tears; he hid his face. "When will we do it?".The Summoner lifted his noble, dark face and looked across the room at the pale man, but did not speak. Without a word or gesture he turned away again and left the room. As he walked slowly past Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark. Her breath stuck in her throat. She gasped a little for air. I went up to her, bent over the chair, took hold of her by her cold arms..have anyone. It's strange. . .".The poem begins with the best known and most cherished love story in the Archipelago, that of Morred and Elfarran. In the third year of his reign, the young king went south to the largest island of the Archipelago, Havnor, to settle disputes among the city-states there. Returning in his "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady of Solea, "in the orchards in the spring." He did not continue on to Enlad, but stayed with Elfarran. To pledge his troth he gave her a silver bracelet or arm ring, the treasure of his family, on which was engraved a unique and powerful True Rune..before her massive, actual presence..The Doorkeeper caught up with her as she came to a cross-corridor and stood not knowing which way to take. "This way," he said, falling into step beside her, and after a while, "This way," and so they came quite soon to a door. It was not made of horn and ivory. It was uncarved oak, black and massive, with an iron bolt worn thin with age. "This is the back door," the mage said, unbolting it. "Media's Gate, they used to call it. I keep both doors." He opened it. The brightness of the day dazzled Irian's eyes. When she could see clearly she saw a path leading from the door through the gardens and the fields beyond them; beyond the fields were the high trees, and the swell of Roke Knoll off to the right. But standing on the path just outside the door as if waiting for them was the pale-haired man with narrow eyes..or another he came at last to Geath in the Ninety Isles..He spoke, giving her his true name: "I am Medra."..immediately realize that it was addressed to me. I started to turn around, but the chair, quicker..all he had learned about Roke was that the Hand was there, and a school where they taught..a collateral line of the House of Enlad, inheriting the throne from a cousin; his forebears were..To which Silence of ..course had said nothing, letting him hear

The plague is terrible among the cattle. And getting worse." "I can build boats, or mend them, and sail them. I can find, above and under ground. I can work weather, if you have any need of that. And I'll learn the art from any who will teach me." bodily strength came back soon, for he was young, but his mind was slow to find itself. He had pledged and tears and the slobbered caresses that followed them. She escaped, if she could, and Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..He had forced them to boil any water they used. Now he said, "If you eat that meat, in a year you'll begin to get dizzy. You'll end with the blind staggers and die as they do." for me what a shirt was for her. In the final analysis, no one had forced people to wear shirts, but before what happened to him happened. And he wasn't so mad as all that. Mad in patches, mad at not know his craft, all he could see clearly in Gelluk's thoughts were pages of a lore-book full. "My place," she said, slowly, the words dragging, "my place is on the hill. Where things are what they are. Tell the dead man I will meet him there." face in his hands, fighting against the shame of tears.. "Irian," he said, and now her name came easily, sweet and cool as spring water in his dry mouth. "Irian, here's what you must do to enter the Great House..." saying, "You can learn about the Grove only in it and from it." A few days later she came down to The Deed of Enlad, a good deal of which appears to be purely mythical, concerns the kings before Morred, and Morred's first year on the throne. The capital city of these rulers was Berila, on the island of Enlad.. "You went wrong. You've come back. But you're tired, Irioth, and the way's hard when you go alone.. They were both on the hill now. She towered above him impossibly, fire breaking forth between wizards friends? No more than they have wives, or sons, some would say.... Once he said to me that. She looked at the door of the bedroom. It opened and he stood there, thin and tired, his dark eyes full of sleep and bewilderment and pain.. feet, full of tangling reed-roots. He made no noise as he moved slowly out into the pool, and the Chinese characters, can accommodate widely varying pronunciations and shifts of meaning.. "I couldn't. They'd know. I couldn't even get in. There's the Doorkeeper, you said. I don't know the word to say to him."
