

THE HAUNTED ISLAND A PIRATE ROMANCE

"Possible complications include cerebral hemorrhage, pulmonary edema, kidney failure, necrosis of the liver, coma-to name a few." He raised the window in the kitchen and climbed outside, onto the landing of the fire escape. Feeling like a high-roaming cousin to the Phantom of the Opera, bearing the requisite fearsome scars if not the unrequited love for a soprano, Vanadium descended through the foggy night, down two flights of the switchback iron stairs to the kitchen at Cain's apartment. Paul Damascus had gotten numerous invitations to dinner. No one thought that he should be alone on this difficult night. Even at this post midnight hour, the lounge would sometimes be as crowded with worried loved ones as at any other time of the day. This morning, however, the only life under the threat of the scythe appeared to be Wally's; the sole vigil being kept was for him. Far from idiotic, Junior's cause was his survival and salvation, and he committed himself to it with every fiber of his body, with all of his mind and heart. In his head, without apparent effort, Barty kept a running total of the number of seconds that he had been alive, and of the number of words in every book that he read. Agnes never checked his word totals for an entire volume; however, when she cited any page in a book that he'd just finished, he knew the number of words it contained. FOLLOWING A SECOND NIGHT at the Sleepie Tyme Inne, waking at dawn, Junior felt rested, refreshed-and in control of his bowels. Those who had just met her and those who were overly charmed by eccentricity called her Seraphim, her name complete. Her teachers, neighbors, and casual acquaintances called her Sera. Those who knew her best and loved her the most deeply--like her sister, Celestina called her Phimie. Angel liked to perch sideways with a drawing tablet in the window seat in Barty's room, look out at the oak tree from the upper floor, and draw pictures inspired by things she heard in whatever book he was currently listening to. Everyone said she was a pretty good artist for a three-year-old, and Barty wished he could see how good she was. He wished he could see Angel, too, just once. "What aren't you telling us?" her mother pressed, intuiting the existence of a larger story, if not the amazing nature of it. "He's a hollow man," Vanadium said. "He believes in nothing. Hollow men are vulnerable to anyone who offers them something that might fill the void and make them feel less empty. So-". "But the breed is nervous, dear. With a nervous breed, you just never know, do you?". "She reads too much hard-boiled detective fiction," Nolly said. "And lately, she's talking about writing it." He wanted an explanation, but no one could give him the one that he needed, because nobody but he himself knew the significance and symbolism of the quarter. Assuming that the boy had closed his eyes and was talking to himself, somewhere between his self-told bedtime story and a dream, Agnes retreated from the room, pulling the door only half shut behind her. pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here. The ninth card was a jack of spades. Maria called it a knave of and at the sight of it, her bright smile dimmed. He'd acted boldly, recklessly, without scoping the territory to be sure Prosser was alone. The accountant lived by himself, but a visitor might be present. Desperately trying to collect her wits, Agnes gazed out at the deluged graveyard, where the mournful trees and massed monuments were blurred by purling streams ceaselessly spilling down the windshield. Missing windshield. Considering that the space was pinched by the crumpled roof, however, and in light of Agnes's pregnancy and imminent second-stage labor, the severe contortions involved in this extraction would be too dangerous. "Maybe he's a character I saw in a movie or read in a novel. I'm a member of the Book-of-the-Month Club. I'm always reading one thing or another. I don't remember a character named B-Bartholomew, but maybe I read the book years ago." These Spartan arrangements were good enough for Vanadium. He had arrived from Oregon the previous night with three suitcases full of his clothes and personal effects. He expected that his unique combination of detective work and psychological warfare would enable him to entrap Cain in a month, before these accommodations began to feel too austere even for one to whom anything fancier than a monk's cell could seem baroque. ". . . then how come you couldn't walk where your eyes were healthy and leave the tumors there," she remembered. Junior realized that killing Renee this very night would be an unthinkable waste. Instead, he could marry her first, enjoy her for a while, and eventually arrange an accident or suicide that left him with all-or at least a significant portion of her assets. being careful to place the point of impact precisely where the bottle had struck her. The sudden change of subject, from the airliner crash to Phimie, confused Celestina. His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain-especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist. This comment left Tom nonplussed. He could only imagine that Jacob had known someone who died in that crash-yet the twin's tone of voice and his expression seemed to suggest that a world without the Bakersfield train wreck would be a less convivial place than one that included it. The gurney, one wheel rattling. The young orderly behind it, dressed all in white. And the nurse again. Junior raised his voice even further: "In those old movies, the Little Rascals." During Junior's brief stroll, the sidewalk ended, giving way to the graveled shoulder of the road. He saw no one on foot, and no vehicles passed him. Celestina rose, heart suddenly clumping in her breast, like heavy footsteps hurrying away from an approaching bearer of bad news, but she herself couldn't run, could only stand rooted in her hope-and hear in her mind six versions of a bleak prognosis in the two seconds before the doctor actually spoke. This was not the time to ponder the nature of the relationship between the treacherous Miss Bressler and Vanadium. Junior had a bloody trail to cover, and precious time was ticking away. ANGEL WAS DRESSED in as much red as the devil himself: bright red shoes, red socks, red leggings, red skirt, red sweater, and a knee length red coat with a red hood. He had considered tracking

down Celestina-and the bastard boy--prior to her exhibition. The alumni office of her college might be one route to her. And further inquiries in the city's fine-arts community would no doubt eventually provide him with her address..On the sofa, Celestina finally worked up the courage to dial her parents' number in Spruce Hills..Recalling how the title of the exhibition had resonated with him when first he'd seen the gallery, brochure, Junior felt certain now that a tape-recorded early draft of this sermon was the kinky "music" that accompanied his evening of passion with Seraphim. He couldn't remember one word of it, let alone any element that would have deeply moved a national radio audience, but this didn't mean that he was shallow or incapable of being touched by philosophical speculations. He'd been so distracted by the erotic perfection of Seraphim's young body and so busy jumping her that he wouldn't have remembered a word, either, if Zedd himself had been sitting on the bed, discussing the human condition with his customary brilliance..At those cutting-edge galleries where he attended receptions, no one got in without a printed invitation. And even with the authentic paper in hand, you might still be refused entry if you failed to pass the cool test. The criteria of cool were the same as at the current hottest dance clubs, and in fact the bouncers controlling the gate at the finest avant-garde galleries were those who worked the clubs.. "You should've seen this, Kathleen. He's dodging people on the sidewalk, shoving them out of his way when he can't dodge them. Three long blocks, Jimmy and I watched the creep, till he turned the corner, three long blocks all uphill, and it's a hill that would kill an Olympic athlete, but he doesn't slow down once."..After supper in a roadside diner, Paul returned to his room and studied a tattered map of the western United States, the latest of several he'd worn out over the years. Depending on the weather and the steepness of the terrain, he might be able to reach Spruce Hills, Oregon, in ten days..She wanted so badly to believe, to see her son made whole again, and the funny thing was that she could believe, and without emotional risk, because it was true..If Vanadium appeared among these men, Junior would not only puke out the contents of his stomach, but also would disgorge his internal organs, every last one of them, and spew up his bones, too, until he emptied out everything within his skin..In the kitchen, a delicious aroma wafted from the oven. On the stove stood a large pot over a low flame, and nearby was pasta to be added to the water when it came to a boil..A door slammed, and after the briefest of internal debates about whether to ize or act, Junior left Ichabod straddling the threshold. He must get to Celestina before she reached a telephone, and then he could come back and finish moving the body..Although she had acutely felt the loss of Joey during the past three years, she had never missed him as much as she missed him now. Marriage is an expression of love and respect and trust and faith in the future, but the union of husband and wife is also an alliance against the challenges and tragedies of life, a promise that with me in your corner, you will never stand alone..With the uniformed troopers was a stocky, late-fortyish, brush-cut man in black slacks and a gray herringbone sports jacket. His face was almost pan flat, his first chin weak, his second chin stronger than the first, and his function unknown to Junior. He would have been the least likely man to be noticed in a ten-thousand-man convention of nonentities, if not for the port-wine birthmark that surrounded his right eye, darkening most of the bridge of his nose, brightening half his forehead, and returning around the eye to stain the upper portion of his cheek..In spite of the bravado of the responses in Junior's unspoken half of the conversation, he was increasingly unnerved by Vanadium. The cop was a lunatic, all right, but he was something more than a mere nut case..Kathleen savored her martini. "Mmmm ... as cold as a hit man's heart and as crisp as a hundred-dollar bill from the devil's wallet."..Vanadium's wounds were too grievous to pass for accidental injuries. Even if there were some way to disguise them through clever staging, no one would believe that Victoria had died in a freak fall and that Vanadium, rushing to her side, had slipped and tumbled and sustained mortal head injuries, as well. Such a strong whiff of slapstick would put even the Spruce Hills police on to the scent of murder..Another pocket. More cartridges. Trying to squeeze just two into the magazine, but his hands shaking and slippery with sweat..Tom caused less of a stir in the restaurant than Kathleen had expected. Other diners noticed him, of course, but after one or two looks of shock or pity, they appeared indifferent, though this was undoubtedly the thinnest pretense of indifference. The same quality in him that elicited deferential regard from the waiter apparently ensured that others would be courteous enough to respect his privacy..Alone with Agnes, the physician said, "I want you to take Barty to a specialist in Newport Beach. Franklin Chan. He's a wonderful ophthalmologist and ophthalmological surgeon, and right now we don't have anyone like that here in town.".. "No. Lampion. Somewhere in your father's French background, there must have been lamp makers. A lampion is a small lamp, an oil lamp with a tinted-glass chimney. Among other things, in those long ago days, they used them on carriages."..The driver's door opened, shoving aside a damaged tea table, and a man climbed out of the Pontiac..As he rose from his chair, Barty began to reacquaint himself with the feeling of all the ways things are, began to bend his mind around the loops and rolls and tucks of reality that he had perceived on the roller coaster that day, and by the time he had followed Angel and Tom to the bottom of the stairs and into the oak-shaded yard behind the house, the day faded into view for him..This was a good night for television. To Tell the Truth at seven-thirty, followed by I've Got a Secret, The Lucy Show, and The Andy Griffith Show. The new Lucy wasn't quite as good as the old show; Paul and Perri missed Desi Arnaz and William Frawley..The maniac kicked once more, but because of the bracing dresser, the door wouldn't budge, so he kicked harder, again without success..Coughing, spitting saliva that was bitter with toxic chemicals, Paul followed her, slapping frantically at his clothes when fire singed his shirt..Beyond the windows, the winter night sifted sootily down through the twinkling city, as he sat in his living room with a glass of Dry Sack in one hand and the picture of Celestina White in the other.. "Better hurry," Wally advised, gracing Celestina's other cheek with a dryer kiss..When Seraphim's bastard baby was dead, evidence of paternity would die with it-and any claim for child support. Even Vanadium's stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit would have to recognize that all hope of bringing Junior down was lost, and it would at last either dissipate in frustration or be reincarnated..At the top of the candlestick, the drip pan and

the socket were marked by a wine-red drizzle. The color of well-aged bloodstains. At the end of their second date, however, Frieda invited Junior up to her apartment, to see her Lientery collection and, no doubt, to take a ride on the Cain ecstasy machine. She owned seven canvases by the painter, received as partial payment of his PR bills. Somehow, Agnes knew that in his younger days, Obadiah had been a stage magician. Artlessly, she drew him out on the subject. Perhaps these two months of frustration had brought him to this: hair-trigger nerves, fevered imagination, and anticipation distilled into dread. Although to Paul this was no more than childish chatter, Tom knew at once that the girl referred to his explanation for why he wasn't sad about his damaged face: the salt and pepper shakers representing two Toms, the hit-and-run rhinoceros, the different worlds all in one place. "Yes, Angel. That's something like what I was talking about." Without ceremony or prayer, although with much righteous anger, Junior hoisted the dead musician over the lip of the Dumpster. For a dreadful moment, his left arm tangled in the loosely cinched belt of the London Fog raincoat. Straining a shrill bleat of anxiety through his clenched teeth, he desperately shook loose and let go of the body. "It's an uncommon reaction," the physician acknowledged, "but not so uncommon as to be rare." A few gasps and exclamations. A sweet giggle and applause from Angel. The reactions were surprisingly mild. Lifting his martini, theatrically gesturing to the tablecloth where the glass had stood, as though the lack of coins proved that he, too, had sorcerous power, Nolly said, "Another round of this magical concoction?" He couldn't remember on what principle he'd considered firing Magusson. In spite of his faults, the attorney was highly competent. Besides, he'd noticed a tendency among dopers to get maudlin, whereupon they sank into a confessional mood, seeking peace through rambling self-analysis and self-revelation. Junior was too private a person to behave in such a fashion. Furthermore, if drugs ever put him in a confessional mood, the consequence might be electrocution or poison gas, or lethal injection, depending on the jurisdiction and the year in which he fell into an unbosoming frame of mind. On New Year's Day, the town learned that it had lost its first son in Vietnam. Agnes had known the parents all her life, and she despaired that even with her willingness to help, with all her good intentions, there was nothing she could do to ease their pain. She recalled her anguish as she'd waited to learn if Barty's eye tumors had spread along the optic nerve to his brain. The thought of her neighbors losing a child to war made her turn to Paul in the night. "Just hold me," she murmured. While they waited for the room-service waiter to arrive, Tom got from Paul a detailed report of Enoch Cain's attack on the parsonage. He had heard most of it from friends in the state-police homicide division, which was assisting the Spruce Hills authorities. But Paul's account was more vivid. The ferocity of the assault convinced Tom that whatever the killer's twisted motives might be, Celestina and her mother-and not least of all Angel-were in danger as long as Cain roamed free. Perhaps as long as he lived. Yet the coin was as real as dead Naomi broken on the stony ridge at the foot of the fire tower. A moment later, in the corridor, as Nolly locked the door to his suite, Kathleen linked her right arm through Vanadium's left. "Do I call you Detective Vanadium, Brother, or Father?" During this same period, having subscribed to the opera, Junior attended a performance of Wagner's *The Ring of the Nibelung*. WALTER PANGLO, the only mortician in Bright Beach, was a sweet tempered wisp of a man who enjoyed puttering in his garden when he wasn't planting dead people. He grew prize roses and gave them away in great bouquets to the sick, to young people in love, to the school librarian on her birthday, to clerks who had been polite to him. In the time of the kings, mages gathered in the court of Enlad and later in the court of Havnor to counsel the king and take counsel together, using their arts to pursue goals they agreed were good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers one against the other in duels and combats of sorcery, careless of the evils they did, or worse than careless. Plagues and famines, the failure of springs of water, summers with no rain and years with no summer, the birth of sickly and monstrous young to sheep and cattle, the birth of sickly and monstrous children to the people of the isles-all these things were charged to the practices of wizards and witches, and all too often rightly so. Junior had the picture now. Clear as Kodachrome. Victoria was in a relationship, and she had come on to him in the hospital not because she was looking for more action, but because she was a tease. One of those women who thought it was funny to get a man's juices up and then leave him stewing in them. "Periodic violent emesis without an apparent cause can be one indication of locomotor ataxia, but you've no other symptoms of it. I wouldn't worry about that unless this happens again." He wasn't afflicted with parenthood envy. A baby was the last thing he would ever want, aside from cancer. Children were nasty little beasts. A child would be an encumbrance, a burden, not a blessing. She got up from the chair, went to the window, and raised the venetian blind rather than look out between its slats. He was in a mood to shoot her, but this weapon was not fitted with a sound-suppressor. He'd left that gun in Celestina's bedroom. This was the pistol that he had taken from Frieda Bliss's collection, and it was as full of sound as Frieda had been full of spew. "Sure. There's lots of places where he didn't get shot, but there's places where he got shot and died, too." Several large Dumpsters hulked nearby, dark rectangles less seen than suggested in the slowly churning murk, like forms in a dream, as ominous as graveyard sarcophaguses, each as suitable for a musician's carcass as any of the others. A scene out of a movie about Robin Hood: a battle with cudgels on a slippery log bridge over a river. "Yes. I ... I'm still soaked with sweat." Clearly, she had learned nothing from her reading. No sincere and thoughtful student of Zedd would be as sorely lacking in self-control as Frieda Bliss. The sill was about four and a half feet off the lavatory floor. With both hands, Junior levered himself onto it. of the deceased. This memorial was modest, neither large nor complicated in design. Nevertheless, often the carvers in this line of business followed days after the morticians, because the stones to which they applied their craft demanded more labor and less urgency than the cold bodies that rested under them. The second medic wheeled the gurney to the rear of the van, calling for one of the policemen to accompany him to the hospital. Apparently, he needed help if he was to deliver the baby and also stabilize Apes while en route. Dinner arrived, and Tom persuaded Celestina and Grace to come to the table for Angel's sake, even if they had no appetite.

After so much chaos and confusion, the child needed stability and routine wherever they could be provided. Nothing brought a sense of order and normality to a disordered and distressing day more surely than the gathering of family and friends around a dinner table. Upon arriving at the creche window, he had been in a buoyant mood. As he studied the quiet scene, however, he grew uneasy. He had visited the library primarily to confirm that Harrison White was unquestionably dead. He'd shot the man four times. Two bullets 'in the gas tank of the stolen Pontiac destroyed the parsonage and should have incinerated the reverend. When you were dealing with black magic, however, you could never be too cautious. "Take care he doesn't turn your belt on you with a spell!" said his uncle. Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?" In the first two weeks, when she wasn't on pie caravans, Agnes received guests in numbers that taxed her. But there were so many people she wanted to see one last time. She fought hard, giving the disease all the what-for that she could, and she held fast to hope, but she received the visitors nonetheless, just in case. When Paul practiced the quarter trick, he usually did so on the sofa or in an armchair, and always in a room with carpeting, because when dropped on a hard surface, the coin rolled and required too much chasing. With the salt and pepper shakers, Tom walked them through the why-I'm-not-sad-about-my-face explanation that he'd given to Angel ten days previously. "Don't worry, love. I'll make sure the snap's are constructed so you can get it off me easily enough." Vanadium owned so few clothes that the two bags had sufficient capacity to accommodate half the contents of the closet and dresser. She was shaking and so afraid, not thinking clearly, and for a moment she didn't understand what he meant, what he wanted, and then she saw that the window on his side of the car was shattered, too, and that the door beyond him was badly torqued, twisted in its frame. Worse, the side of the Pontiac had burst inward when the pickup plowed into them. With a steel snarl and sheet-metal teeth, it had bitten into Joey, bitten deep, a mechanical shark swimming out of the wet day, shattering ribs, seeking his warm heart. Footsteps in the hall drew their attention to the open door, where the surgeon appeared in his loose cotton greens. Yet Agnes feared him, for reasons similar to those that might cause a superstitious primitive to tremble in the presence of a witch doctor. Although he was a healer, his dark knowledge of the mysteries of cancer seemed to give him godlike power; his judgment carried the force of fate, and his was the voice of destiny. For Gammoner, exactly as for Pinchbeck, Google had provided: a driver's license that was actually registered with the California Department of Motor Vehicles, and that would, therefore, stand up to any cop's inspection; a legitimate social-security card; a birth certificate actually on file with the cited courthouse; and an authentic, valid passport. After a silent moment of surprise, Nork or Knacker, or Hisscus, said, "Your sentiment is understandable, Mr. Cain, but it's customary in these matters--". Shortly past nine o'clock, an hour after Edom and Jacob had gone, Barty came downstairs, book in hand. "The twisties are back." Impressed by the sureness and swiftness with which the blind boy negotiated the steps and set off across the lawn, Tom didn't initially notice anything unusual about his stroll through the deluge. He rode up to the third of five floors in the service elevator, which other tenants were permitted to use only when moving in or moving out, or when taking delivery of large items of furniture. Another elevator, at the front of the building, was too public to suit his purposes. He had difficulty picturing the detective puttering in the garden on weekends. Unless there were bodies buried under the roses. lawn before they knew that the prodigy's invisible cloak wouldn't accommodate him as it did the girl. Cool, drenching rain pounded Tom at once, and he scooped Barty off the steps as Grace had gathered up. In the spring and summer of '66, he flew to Memphis, Tennessee, stayed a few days, and walked 288 miles to St. Louis. From St. Louis he hiked west 253 miles to Kansas City, Missouri, and then southwest to Wichita. From Wichita to Oklahoma City. From Oklahoma City east to Fort Smith, Arkansas, from whence he rode home to Bright Beach on a series of Greyhound buses. In the execution, he was likewise scrupulous, for he didn't want the grownups to see what Angel saw; he preferred they believe it was sleight of hand-or magic. After the usual moves, he briefly closed his right hand around the coin, then with a snap of his wrist, flung it at Angel, simultaneously distracting with flourishes aplenty. In spite of her nature, Agnes could not find forgiveness in her heart this time. Words of absolution clotted in her throat. Her bitterness dismayed her, but she could not deny it. She nodded. And could not lift her gaze from her hands. Could not meet his eyes, afraid that his worry would feed her own, afraid also that the sight of his sympathy would shake loose her perilous grip on her emotions. During the following ten days, he withdrew money from several accounts. He converted selected paper assets into cash, as well. Tom Vanadium was no alarmist, and the most logical explanation came to him first. Paul had wanted to learn how to roll a quarter across his knuckles, and in spite of being dexterously challenged, he practiced hopefully from time to time. No doubt, he had sat at the table this morning--or even last evening, before bed-dropping the coin repeatedly, until he exhausted his patience. Two of her largest and best paintings were in the show windows, dramatically lighted. They were dazzling. They were dreadful. They were beautiful. They were hideous. To the window in the driver's door, Barty came with a repertoire of comic expressions, mugging at his mother, sticking one finger up his nose and exaggeratedly boring with it as though exploring for nasal nuggets. "Not scary, Mommy!" "Most tornadoes stay on the ground twenty miles or less," Edom explained, "but this one kept its funnel to the earth for two hundred nineteen miles! And it was one mile wide. Everything in its path--torn, smashed to bits. Houses, factories, churches, schools--all pulverized. Murphysboro, Illinois, was wiped off the map, erased, hundreds killed in that one town." "Me, me," Celestina said. "In fact, fianc?es should come first." "Six hundred ninety-five people were killed in three states. Winds so powerful that some of the bodies were thrown a mile and a half from where they were snatched off the ground." He had already reviewed twenty-four thousand names, finding no Bartholomew, putting red checks beside entries with the initial B instead of a first name. A slip of yellow paper marked his place. As yet, he hadn't taken either an antiemetic or antihistamine to ward

off vomiting and hives, because he wanted to medicate -against those conditions as shortly before the violence as was practical, to ensure maximum protection. He'd intended to dose himself only after he followed Celestina home from the gallery and could be reasonably certain that he had located the lair of Bartholomew..Although Vanadium had been morally certain about the identity of his assailant, intuition without evidence was not sufficient to stir the authorities into action-not against a man on whom the state and county had settled \$4,250,000 in the matter of his wife's mortal fall. They would appear either to be incompetent in the investigation of Naomi Cain's death or to be pursuing Enoch in the new matter out of sheer vindictiveness. Without stacks of evidence, the political risks of acting on a policeman's instinct were too great.
